StagQuest: How to Play

StagQuest is a 9-day solo or small-group card game to build virtue and resist addiction, inspired by a novena. Grow your Stag's Family Strength with two decks: Virtue (daily draws) and Temptation (challenges on days 3, 6, 9).

How to Play:

1. Setup: Print and cut out the Virtue Deck (18 cards), Temptation Deck (5 cards), and Stag Pouch sheet.
2. Start: Shuffle both decks separately. Set your Stag Pouch to Family Strength 0.
3. Daily Draw: Each day, draw 2 Virtue Cards from the Virtue Deck. Complete their tasks (pray, reflect, act).
4. Temptation Test: On days 3, 6, and 9, draw 1 Temptation Card. Resist it (say 'Y') or lose a day's progress (say 'N').
5. Track Your Quest: For each day you complete both Virtue tasks and resist Temptation (if drawn), place a Virtue Card in a Stag Pouch slot. One 'N' means no card for that day.
6. Win: After 9 days, if you fill all 9 Stag Pouch slots, increase Family Strength by 1 and claim your Virtuous Stag badge!

Tips: Personalize your Stag Pouch or cards with drawings (e.g., antlers). Join our Discord to get an NFT when StagQuest launches online, and suggest new cards—share ideas and win points if approved!
